

FORDSON TRACTOR SERIAL NUMBERS

Identifying the year your Fordson was made is not always easy. The Serial Number is stamped on the Engine Block and the Number is not always well stamped and visible. To compound the problem, Fordson's were pretty interchangeable from year to year and during their working years it was not uncommon to switch engines or rearends to keep a tractor working on the farm. Because of this problem you'll frequently find Fordson's with a mixture of parts from various years on the same tractor.

FORDSON ENGINE NUMBERS BY MONTHS.

	1917	1918	1919	1920	1921	1922	1923	1924	1925	1926
